

**RAREWALA GROUP**

Manufacturer & Stockist of Bright Bars

## **INTRODUCTION**

An **ISO 9001: 2008** accredited company; we are the **MANUFACTURERS** of high quality Free Cutting, Alloy Steel, Non Alloy Steel and Mild Steel, both Bright and Ground Bars. We also specialize as **STOCKIESTS** and **DEALERS** in Black Bars of all sizes and shapes for major reputed suppliers.

With an annual capacity of over 10,000 MT, we are fully equipped to supply Round/Hexagon/Square Bright, Ground and Black bars to suit our customers' requirements.

Given that our products are ultimately used in the Automobile and precision engineering industries we provide the highest **Quality Product**, striving not only to meet our customers' very high expectations, but also to exceed them. To enable us to achieve this, our Company is backed by team of over 100 well trained, substantially experienced and dedicated personnel, with up to date machinery and support facilities. Our plants are equipped to handle high volume production and we are constantly striving to improve this to meet the challenges of today's ever changing market.

Our ethos is to provide our customers with engineering excellence with the highest quality bespoke product backed by an **Excellent Service** and **Prompt Delivery** at the best possible price. As a result we have built up a strong name in the marketplace which is evident in the long lasting relationships we have with our suppliers and customers.

Under the continued expert guidance of our Managing Director **Mr. Pramod Murarka**, who has over 25 years of experience in this field, we strive to grow and build mutually fruitful relationships with our suppliers and customers.

## **Quality**

We can make sizes in any range to meet our customers' needs.

Our technical capacity includes

- Raw Material Check.
- Physical Check at the Laboratory
- Final Checking at the Time of the Delivery

## **Products**

- Free Cutting steel.
- Alloy steel
- Carbon Steel
- Mild Steel

Our Bright Steel Manufacturing Facility is capable of drawing bright bars in following sizes:

Rounds	-	5mm	to	65mm
Hexagons	-	5mm	to	51mm
Ground Bar	-	5mm	to	65mm

### **Common Grades**

- Mild Steel conforming to SAE1010, SAE1018, etc.
- Carbon Steel conforming to EN8, EN8D, CK45, S35C etc
- Free Cutting Steel conforming to EN1A, EN1A (L), EN8Metc
- Alloy Steels conforming to grades like 16MnCr5, SAE 8620, EN19 etc.

### **Bright Bar Division**

#### **Unit No.1**

**Rarewala Steel & Alloys Pvt. Ltd.**

**#494, 2<sup>nd</sup> Stage, Simpura Industrial Estate, Dobaspet, Bangalore**

Draw Benches-1, Straightening Machines-2, Reeling/Polishing Machine-2, Pointing-2, Bandsaw Cutting Machine-2, Grinding Machine - 4, Wire Drum - 1, Combined Drawing Machine - 1, MPI Testing Machine - 1.

#### **Unit No.2 :**

**Rarewala Engineering Works**

**A03, HMT Industrial Estate, Jalahalli West, Bangalore.**

Draw Benches-1, Straightening Machines-1, Reeling/Polishing Machine-1, Pointing-1, Grinding Machine - 2, Power Hexa Cutting - 3.

#### **Unit No.3 :**

**Rarewala Engineering Works**

**59/1, Uttrahalli Main Road, Bangalore**

Wire Drum - 1, Wire Straightening - 1, Disc Polishing Machine - 1.

## Suppliers
